

Webinar Artificial Intelligence in Paediatrics

On December 7 from 15:00 to 18:00 hours (CET) a Webinar on Artificial Intelligence (AI) in Paediatrics will be held.

The webinar is organised by the leads of the c4c Developmental Pharmacology Expert Group (Anne Smits), the c4c Ethics Expert Group (Dirk Lanzerath) and the c4c Pharmacogenomics and other OMICS technologies Expert Group (Matthias Schwab).

Speakers:

- 1) Matthias Schwab – introduction and moderator
- 2) Jolien Freriksen - Saskia de Wildt - “literature searches and AI”
- 3) Anke-Hilse Maitland van der Zee - topic “paediatric Asthma and AI”
- 4) Maaïke van der Lee - “AI and drug metabolising enzymes”
- 5) Wei Zhao - “dose machine learning”
- 6) Dirk Lanzerath - “AI and ethical considerations”

The webinar is free of charge although registration is needed. Please register yourself by sending an email to conect4childrenwp4@radboudumc.nl. Please list the following information: Name, workplace, function, already involved in conect4children yes/no. The deadline for registration is **December 2nd** End of Business.

Hope to see you there!
